ABOUT ME

I am a service-oriented and highly motivated Civil Engineer. I stand out for my ability to adapt to various circumstances, commitment to continuous learning and willingness to contribute the maximum effort in infrastructure and construction projects.

PROFESSIONAL EXPERIENCE

Superintendent Assistant – BINARQ

Mobilization Training Barracks (SCAB) | May 2026 – Present

- Supervision of activities in fire suppression system installations, finishes, electrical and mechanical installations, sidewalks, roofing system and standing seam roof; subsequent performance of quality tests based on USACE regulations prior to and during inspections.
- Management of resources on site and quantification of materials based on submissions and technical specifications.
- Monitoring, control and monthly update of the schedule of activities and Gantt chart.
- Prepare shop drawings and as-built drawings for construction projects, ensuring accuracy, consistency with design documents, and compliance with project specifications.

Design and Budget Assistant – IESA Group

Greenhouse Module Pilot Project | Feb 2026 – May 2026

- Processing of topographic points in Civil 3D for the generation of existing land surfaces and grading of 3 alternatives of land with requested slopes according to technical requirements, marking of sampling lines, cross sections, obtaining cutting and filling volumes based on an average fixed level and equating cuts with fills.
- Layout of alignments and design of the geometry of the cross-section of the pavement in internal streets of the project, leveling and calculation of cutting volumes and fills.
- Obtaining floor-profile plans with summary information of the internal streets by alternative on each plot.
- Detailed drawing of the perimeter fence, irrigation shed, dining room and sanitary services.

Resident Engineer - CONDELSA

Construction and Paving of the Tegucigalpa–Santa Lucía Section | Nov 2025 – Feb 2026

- Supervision of earthwork and stabilization with soil-lime and soil-cement in subgrade and subbase.
- Control of hauling of select material, benching, sub-excavations and work progress.
- Development of work progress reports.

Paving with Asphalt Concrete, Chamelecón Sector | Oct 2025 – Nov 2025

- Supervision of subgrade stabilization with soil-cement and sub-excavations for soil improvement.
- Control of personnel payroll, machinery hour meters and technical reports on work progress.

Roatan Emergency and Continuing Care Hospital | Jan 2025 – Oct 2025

- Supervision of exterior works, gabion walls and hydrosanitary installations.
- Control of earthworks, resources, machinery and contractor payrolls.

Valle de Ángeles Paving Phase II | Sep 2024 – Jan 2025

- Supervision of paving and earthwork placement in the field.
- Coordination of equipment, machinery, budgets and biweekly subcontractor payrolls.

ABILITIES

- Autocad, Civil 3D, Revit, Project
- Etabs, Sap 2000
- Word, Excel

LANGUAGES

- English (B1)
- Spanish (Native)

COURSES

- Intensive English – IHCI (2022)
- Microsoft Project – CEETI (2023)
- Course of costs and budgets – INFOP (2024)
- Specialist course BIM Revit modeler (Structure, architecture, MEP, Dynamo and Naviswork) – ROMO (2026)

EDUCATION

Civil Engineering

National Autonomous University of Honduras (2025)
